ADCUFF™ SPU

Single-Patient-Use Blood Pressure Cuffs

Better DESIGNED

Our line of single-patient-use blood pressure cuffs has been completely redesigned with a focus on precision, comfort, and value.

Curved Corners
for greater patient comfort

Range Markings
for accurate sizing, minimizes risk of miscuffing

Strong Hook-and-Loop Adhesive
withstands repeated open/close cycles

Index Line
for accurate sizing, minimizes risk of miscuffing

Cuff ID Panel
provides vital cuff information at a glance

Size Icons and Color Coding
for quick visualization of selected cuff

Printed Model Numbers
simplify stock control and reordering

Properly Positioned Artery Mark
for optimized arterial compression (you'd be surprised how many aren't)

Standardized connections mean fewer model options, improved stock control, and simplified inventory management.

All in a flexible, non-proprietary solution that's compatible with most major monitor brands.

- **Thirteen sizes for neonatal, child, and adult patients**
- **One-piece construction with a soft and flexible finish**
- **100% individually leak tested**
- **Economical enough for single-patient application**
- **Durable enough for repeated use**

SPU
Cuff Reference Guide

ADC's single-patient-use cuffs are available in 13 clinical sizes. Cuffs are color coded and available in both one- and two-tube configurations.

Adcuff SPU Blood Pressure Cuffs

- Economical enough for single-patient application
- Durable enough for repeated use
- 100% leak tested to assure dependability
- Five clinical cuff sizes for neonatal patients
- Eight clinical cuff sizes for child and adult patients
- The industry's most precise cuff markings
- Cuff design minimizes miscuffing errors
- Rounded corners and soft, woven construction
- One-tube configuration with bayonet-type (HP) connector (part 8974)
- Two-tube configuration with screw-type (Dinamap) connector (part 8971)
- Neonatal cuffs with Luer connector (part 8975)
- Standardized connectors for improved inventory management
- Add low-cost adapters directly to monitor for a long-lasting, one-time conversion
- Compatible with most brands of monitors

Simply STANDARDIZED

ADC's Adcuff SPU standardized connectivity solution is the simplest yet. While some competitors lock you into a platform, or offer hundreds of complicated and confusing cuff configurations that drive up costs, we start with two choices:

Choose a one-tube cuff with a bayonet-type (HP) connector, or a two-tube cuff with a screw-type (Dinamap) connector.

Then, if needed, use a straight, X, or Y adapter to connect your cuff of choice to virtually any monitor on the market.

It's a low-cost, long-lasting, one-time conversion.

For 1-Tube Monitors

with Male Marquette Connectors

1-Tube Cuff

HPF-S-MQF
Bayonet (HP) Female to Marquette Female

2-Tube Cuff

SCF2-Y-MQF
Screw (Dinamap) Female to Marquette Female

with Female Screw Connectors

1-Tube Cuff

HPF-S-SCM
Bayonet (HP) Female to Screw (Dinamap) Male

2-Tube Cuff

SCF2-Y-HPM
Screw (Dinamap) Female to Bayonet (HP) Male

For 2-Tube Monitors

with Male Marquette Connectors

2-Tube Cuff

SCF-S2-MQF
Screw (Dinamap) Female to Marquette Female

with Female Bayonet Connectors

2-Tube Cuff

SCF-S2-HPM
Screw (Dinamap) Female to Bayonet (HP) Male

For Custom Configurations

Don't see what you need? ADC offers open-ended adapters and will custom assemble for your facility – **always without charge.**

For 1-Tube Monitors

1-Tube Cuff

HPF-S-N
Bayonet (HP) Female to customizable open end

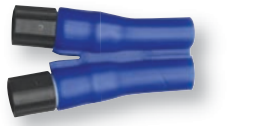

2-Tube Cuff

SCF2-Y-N
Screw (Dinamap) Female to customizable open end

For 2-Tube Monitors

2-Tube Cuff

SCF-S2-N
Screw (Dinamap) Female to customizable open end

Diagnostic instruments of extraordinary design, exceptional quality, and superior performance – all with the industry's most comprehensive warranties.

In use on six continents in more than 60 countries, ADC products enjoy a reputation for performance, durability, and value. For more than 30 years, healthcare professionals and institutions have relied on ADC to deliver the right equipment at the right price, with a user experience that's second to none.
