Prospera Flex™ NPWT System

A novel disposable, single-use NPWT system encompassing a device, canister, tubing, and wound dressing interface. It is indicated for use on a variety of wound types, including closed surgical incisions. It can be used with dressings compatible with NPWT, providing clinicians flexibility to choose the most appropriate dressing for their patients.

NPWT Benefits Include[1,2,3,4]

- Acts as a Barrier to External Contamination
- Provides an environment to promote wound healing
- Helps to hold Incision Edges Together
- Removes Fluids and Infectious Materials
- Decreases Lateral Tensions of Sutured/Stapled Incisions
- Reduces Edema

Prospera Flex Single Use 7-Day NPWT Device

- Single button user interface
- Provides 7 days of NPWT
- Delivers-80mmHg of continuous NPWT
- Audible and visual alarms
- 45cc flexible canister
- Canister integrated tubing (4ft)
- Discrete carrying case
- AA battery powered

Prospera Propel™ FX Dome

- Incorporates Prospera Propel Technology for efficient fluid removal
- Self-sealing dome prevents fluid from entering wound interface when tubing is not connected
- Connector at dome allows for convenient tubing detachment, supporting patient daily activities (showering, etc.)

Prospera Flex NPWT System is Compatible with Lumitech™ Incisional Wound Dressings

- Distributes pressure evenly across the dressing
- Reduces lateral tension when used over closed incisions
- Available together in a post op convenience kit for ease of ordering and application
